WASHINGTON LETTER

HINGTON, D. C., October 3d 1904. EVEN Judge Parker were as bright man as President Roosevelt, it would take him twenty years to learn as much about public faffairs as the Presiden knows. Legislature at twenty-one year of age then old Civil Service Cor sioner, Police Commissioner, Secretary of ous war. Governor of New York, Presid President of the United States! To take a man from even so exalted a place as the inpreme Bench of his state and place him in the executive office of the greates odern people is too hazardous a wrench both for the man and the country Cleveland with his better preparatio and experience as Mayor and Governo left the Presidency worse hated (and is

It is well within the truth to say that better equipped for the duties of the Presidency than any predecessor. thought, his writings and his public life were as fortuitous a preparation as if he had been specially educated for the Pre But when we add to his unique preparation, his remarkable manly vigor undulled by age; an appetite and capacity for work equal to that of Gladstone; with irrepressible zeal for the purification and improvement of the public, we have as

And now some amateur American col lege engineers have discovered a way to shunt the romping Charges river into the Panama Canal of its greatest menace, and make a sealevel ditch possible. Mr. Wallace the high-salaried engineer say the shunt can be accomplished at a cost of \$16,000,000 and a net saving of \$20, 000,000 to say nothing of the incompar able advantage of a lockless waterway.

At a most oritical period of our history we had in the presidential chair a con-servative, timid, old man. His lack of ess cost the country untold blood and treasure. We are on the verge of another period, perhaps not less critial. New and perilous questions are clamoring for solution. Happily the mental, moral and physical antithesis of James Buchanan is in the White House Let us hold him there.

The President has no lack of business He is receiving delegations of all sorts of people from all parts of the world; entertaining notable personages; writing letters; and hunting down alleged for delegation of French artisans, sent by tion, have been made welcome to the pressed much satisfaction over the outcome of a vexatious little incident which was causing some annovance. It was been forged to a letter which he never wrote, and which was being circulated among the miners in Colorado. It appears that it was in reality an extract from what was called an "humorous ediwhich is anything but friendly to the Administration. The western press was imposed upon and the sequel shows how hard pressed some news purveyors are for a sensation. All sorts of wild cat rumors are afloat in the political atmosphere regarding the amount of money carry on the campaign. But as fast as and another set afloat. The Republican

Hitchcock sion continued for about two hours but assurancess that no question of serious was devoted to talk about the political situation. Three members, Taft, Shaw and Moody, are expecting to engage actively in the campaign from now untill November 8th. There was absent one member who will probably never again engage in any campaign. The Postmaster General is lying, it is thought, at the his ailment-heart failure being very Senator Hanna.

There is another little tempest in teapot anent the lie that Admiral Schlev the battleship Connecticut. He was in vited but did not respond in person Doubtless like many others who were called but did not come, he had good reasons for staying away. Why will not the Santiago battle rest. BRANDYWINE HUNDRED SITUATION

The Evening Journal on Satur day gave a highly garbled ver sion of the meeting of the Re publican County Committee and its action in reference to the re turns from the Third Election District of Brandywine Hundred. In its desire to be fair and to of fer no possible excuse for charges of unfairness, the County Committee extended to the representatives of the press the privilege of being present and reporting all the facts. But the effort is made to create the impression that the committee was in fluenced more by the desire that a majority of its members are supposed to have for the success of one or another candidate than by the aim to do what the law demands. The Journal knows or should know better. Every member of the County Committee is a Republican and more desirous of the success of the party than is the Journal, and all know that no party can succeed unless fair treatment is extended to all candidates and the law rigidly followed.

The law governing Primary Elections in this county provides that "the regularly and constituted County Committee or governing authority of the political party, organization or association holding any primary election is hereby empowered to calculate the aggregate number of votes cast in all the hundreds of the county or any subdivision thereof, for every person voted for any one office at such primary election, and to declare the candidate or candidates, in cases where candidates for more than one office are to be nominated, receiving the highest number of votes the nominee or nominees of such political party, organization or association for the office for which he was voted for at such primary election. In all cases of a tie vote, or of contests the regularly organized County Committee or governing author ity of the political party, orgrnization or association or holding such primary election shall have the power to hear and determine such contests, and to decide who shall be entitled to nomination. There is in this law nor no other law, any provision that on a mere protest because the protestant, 'has reason to believe that he received" more votes than are returned by the election officers, that the sworn return of these officers should be thrown out We do not believe that the County Committee would be justified in throwing out the returns of any district unless it were clearly proven that the officers had vio lated their oaths and rendered themselves liable to prosecution. Taking the case in point, Mr.

Brown offered a simple protest over his own signature entirely upsupported by evidence against counting the returns from the Third District of Brandywine Hundred, because he had every reason to believe that he had received more than 29 votes. He might with equal honesty (and we know that Harry Brown is honest) have entered the same protest against the Third District of St. Georges Hundred. But is that a good reason for dis franchising nearly 200 Republi cans, who honestly voted for some candidate? No. If there is anythirg wrong with count and Mr. Brown or any other can didate knows of it, why not come backed by the necessary affidav its of men who voted for Mr. Brown. Mr. Quigley's majority over Mr. Brown in the County was 86. In order to secure a recount of the ballots in the diswhose votes were needed to be reached. voted for him in that District. To admit of any other construction that the County Committe had Admitting for the sake of arg is to lead to anarchy. If Brown to consider, but which all of the ment that all the charges me has the right to object to districts papers have overlooked. The are true, as to certain candidat

NEXT REGISTRATION

October 22nd will be the last day upon which voters can register for the coming election, and the workers of the differen political parties are now making an effor to have those not registered place their names on the voting list.

There are now five political parties with tickets in the field, and if all of them work to secure the registration of their sympa thizers it is thought they will be able to get out the full vote. It is not expected that the registration will equal that of four years ago. Politicians are of the opinion that the registration will be fully equal to that of two years ago, and some of them except that the number qualified to vote on the last day of registration will break all previous records in that line

SENATOR HOAR DEAD

Worchester, Mass., Sept. 30.—George Frisbie Hoar, senior United States senator from Massachusetts, died at his home in this city at 1.35 o'clock this morning. The end followed a period of uncon sciousness that had continued since early Tuesday and came so gently that only the attending physicians were aware of the exact moment of dissolution.

The attending physicians despaired of the senator's life six weeks ago, but such was the vitality exhibited by their distinguished patient that even they were to cherish a faith in an ultimate recovery abandoned after a last unsuccessful attempt to administer medicine and nour-ishment. Brief lucid intervals were followed by longer durations of unconscious-ness urtil Tuesday morning, when the venerable statesman sank into a state of coma, from which all efforts to rouse him proved futile.

DELAWARE COLLEGE.

It is now nearly two weeks since Delaware College began what promises to be the most satisfactory year in the history of that admirable institution. The number of students exceeds that of previous years, and the freshman class comes in with fewer conditions and better equipped in every way than any former.

College of their own State provided as good opportunities are offered there as elsewhere. Most of the freshmen come from such institutions as the Wilmington High School, Friebds' School; Conference Academy, the High Schools of Dover, Smyrna, Georgetown, New Castle, Elkton, etc., etc. It is now nearly two weeks since Del-

They come and feed on the squid, young mackeral and other objects of interest that they encounter. The fattening dist moves them along to a weight of sometimes as much as 500 pounds. With their times as much as 500 pounds. With their swords and their amazing powers of locomotion they have no (ear of anything, and they lie on the top of the ocean as serene as if there was nothing else. In oceation. The big black dorsal fin waves gracefully to and fro in the air as the fish lies there, and often the tail sticks out almost as conspicuously. That is what gives them away. It seems almost incredible that on the great expanse of the ocean so slight an object should be noticeable, but it is by discovering the waving fins that the fish are fund. rould not save it. To the horror of the perating department, the five hundred thousand dollar bridge went to the eerap heap. The picture-eque features of the pioneer line had had their day.

The first new order to the engineering department on the divison where the traffic converges towards Chicago called for grades no greater than three-tenths of one per cenj. Severely pound rails were confered for branches and passing tracks and, on the main line, eighty-pound rails were called for from end to end of the system. While steam shovels were tearing down the Llinois hills bridge engineers were ripping out trestlers and culverds, and the false work was going in at the Missouri river for the new bridge—a million dollar steel tridge, capable of carrying the huge locomotives and the cars of fifty-five tons capacity that were being fullit for the new owners. To eliminate curves and reduce grades, the original right of way was in places wholly abandened.
